

## Inkjet Stencils Instruction Guide

### Product List

- **Any Epson Ecotank Printer** – ET-2660, ET-2750 or any other.
- **Inkjet Stencils formula** One or more 4oz bottle
- **Gloves**
- **Syringe or funnel** may be useful dispensing ink into the printer tanks. **Epson ink bottle dispensing caps work best. These are supplied with all new Epson EcoTank printers.**

### Getting Started

**Take the printer out of the box** and keep the instruction guide.

**DO NOT power up the printer** until you have filled the ink tanks

**Put gloves on** to avoid staining your hands

**Open the cover of the printer** for all four ink tanks.

**Remove dispensing caps** from all 4 colours Epson ink bottles.

**Open the bottle of Inkjet Printer Ink** and pierce the foil seal with a pin or small pointed object. Place Epson dispensing cap on the bottle of Inkjet Printer Ink over the foil with black rubber washer in place.

**Dispense the ink** in all four tanks with the intention of distributing it evenly, 1 oz in each tank. Each ink tank has a mating dispensing cap that connects to the port to minimize spillage. Four ounces will not fill all tanks but will print about 3000 stencils.

**Plug in the printer and turn it on** and initiate the startup process.

**Connect the printer to your internet network.** You can send files to the printer from your wireless device over the WI-FI network.

**Connect the printer to your computer** with a USB cable if your computer has a USB port. USB cable is not supplied with the printer.

**Start printing stencils.**
